

Hello (First Name)!

It's been another massive month at Bendix, with a number of new product ranges launched at the recent AAAExpo including the new Protrans Commercial Vehicle Brake S-Camshafts range and more!

You can read all about the expo as well as our new innovations in this month's B-m@il alongside helpful info about brake noise prevention and how to eliminate steering vibration.

Yours Sincerely,
The Bendix Team

NEW COMMERCIAL VEHICLE RELEASE: **PROTRANS BRAKE S-CAMSHAFTS**

The new series of Protrans brake s-camshafts are designed for a range of commercial vehicles.

Forged using high quality carbon steel to meet SAE 1045 standard, these brake s-camshafts feature hardened critical contact points to increase reliability, wear life and corrosion resistance.

THANKS FOR VISITING US AT THE 2019 AAAEXPO!

This year's Australian Auto Aftermarket Expo was a huge success! Thank you to all who made it to the Bendix stand!

Not only was the Bendix stand overflowing with existing Bendix products and services, it also saw the launch of several new products including our **Brake S-Camshaft Range**, our **Ultimate Disc Rotors Range** and our **extended Ancillary Solutions Range**.

Congratulations also to T White from SA on winning the BBQ/Fridge!

BRAKE NOISE IN-DEPTH: CAUSES AND PREVENTION!

One of the biggest mechanical annoyances is brake noise. What is it? Broken down into basic science, it means that under braking, something is vibrating at a frequency high enough make you notice there's 'noise'.
