DECEMBER 2020

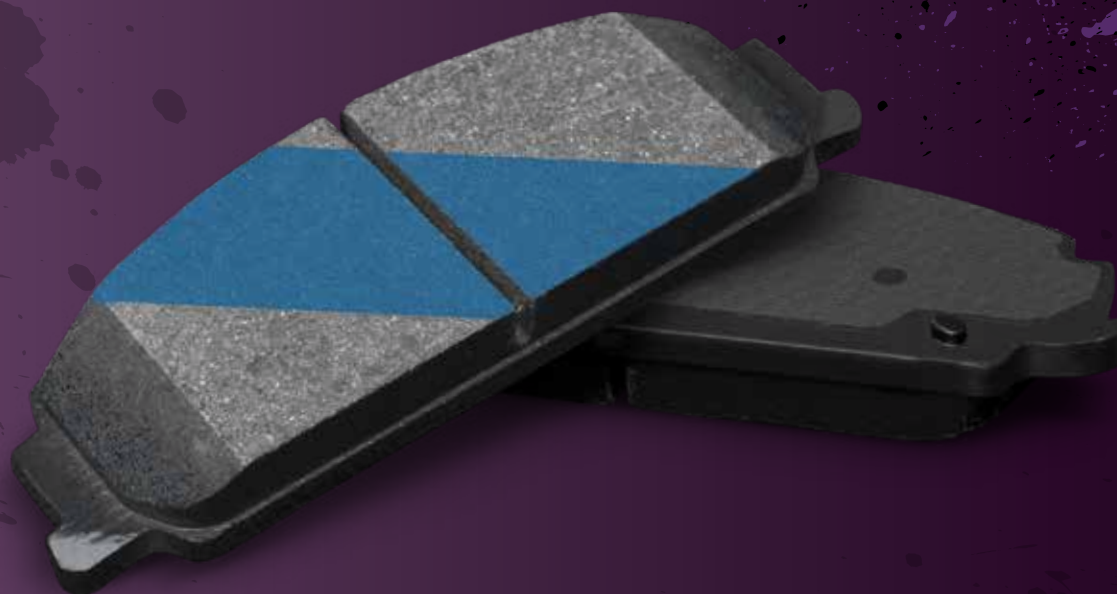

Announcing Bendix Ultimate 4WD Disc Brake Pads

Engineered to suit the extreme of the hardest working 4WD applications, Bendix Ultimate 4WD Disc Brake Pads were initially offered exclusively in the Bendix Ultimate 4WD Brake Upgrade Kit, they are now available to purchase separately.

Ultimate 4WD Disc Brake Pads are engineered to partner slotted rotors, are manufactured with Bendix premium Mechanical Retention System (MRS) with our newest, most high-tech ceramic formulation, and they provide a low dust and low noise user experience with Bendix's highest performance specialised 4WD brake pad system.

Mechanical Retention System (MRS) backing plate

ULTIMATE 4WD DISC BRAKE PADS

FEATURES:	BENEFITS:
Ceramic Material	■ Low Dust, Low Noise, while providing high temperature stability and excellent fade resistance
Mechanical retention system backing plate	■ MRS technology used in commercial vehicle brake pads, for improved pad attachment strength, for heavy duty operating conditions
Designed for Slotted Rotors	■ Works best with slotted rotors, delivers confident stopping in all conditions

You can feel confident with Bendix Ultimate 4WD Brake Pads with the heaviest loads, towing, on the tracks around town or on the highway, wherever your 4WD adventure takes you.

We hope you have learned the fundamentals of how Bendix Ultimate 4WD Disc Brake Pads improve the braking performance of your 4WD. **Remember to always fit Bendix brakes!**
